

MOLDOVA

From March 2022 we have helped to support the work of Remus and Catea Trimbițaș based with Operation Mobilisation (OM) at Chișnău, Moldova. Baby Agnes arrived in November. December and January focused on time with Agnes. February onwards has seen projects resume with visiting, food parcels, winter wood; meetings with children and mothers in March.

Village of Pojareni: *With God's help, this winter, we brought the warmth of God into homes by sharing the gospel, second-hand clothes and a new Duvet quilt. The deacon of the Bethel church also enjoyed the work being done and the experience he had. Going to Pojareni less often since the baby arrived I took the opportunity to visit the people with whom we worked last year. Mrs Alexandra is always happy to see us, as she lives alone. During the discussion, she said: "when you enter the gate, it's as if I see God in my yard", which was a testimony of joy for us. Our vision for 2023 was to purchase a piece of land in Pojareni on which, with God's help, we can install at least a Tent where we can do activities in the summer with children and adults. In the future a building that will be a local centre of activities and organization. We were very happy to be able to complete the land purchase in February!*

Village of Vasieni: *With God's help, in December I completed all the necessary documents for the purchase of the land where Mariana and her children live. Thank you to everyone who prayed and donated. Through you, God brought hope and peace to this house and also a more secure future for this family, that they will not be evicted. We also managed to install new windows and a door for their house with the help of 2 brothers from the OM who were a great help to us both in work and experience. Mariana was also blessed with a washing machine. Until now, she and her eldest daughter washed their clothes by hand and had to walk 10 minutes to the nearest water source. Although the water source has not come closer, at least half of the burden is taken away.*

*We are also busy providing transport and administration for OM. Please pray for: The villages of Pojareni and Vasieni, that the people we visit will come to Christ. Finances for our family to be able to continue our ministry together with OM (at this moment, our income is only around 70% of our needs). **Remus & Catea***
