

## BERINDEI

*Thanks for another year in which you were with us in the work of Berindei. Partnership with you is a great encouragement for us and you are a big support for the medical work. Our own children grow and we enjoy them. Ines goes to kindergarten. Daniel will stay with his grandparents until May when he can go to kindergarten. My husband Ionel looks after baby Ana in the morning, while I work in the surgery. Jeni my nurse is going to give birth in February. She will stay home for 42 days, and I will continue with my other nurse Flori.*

*Thank you very much for the dressings, they are especially useful for the people who use wooden fires in small rooms at home, and accidents happen. The child in the picture [right] fell into a pot of boiling water was then hospitalized. Now I dress the legs in the surgery. The old man in the picture with nurse Jeni [left], was burned and he had no insurance for hospital treatment. After 3 weeks treatment at the surgery with aqueous dressings he is fine now.*

*Recently I had a group of young people from Sibiu, the children received gifts, old boots and food. We send you all greeting with Psalm 27v14.*

*February*

### February

*The girl [right], Simona, is 1 year old and 7 months old. Her parents were only children themselves and so she was raised in an orphanage. Now they*

*have all moved now to Berindei, and I took over her case. Simona has malnutrition and shows a deficit of 5 kg. Thanks for the infant supplement drinks you sent us - it is a great blessing for us – here they are difficult to find and expensive. With the Lord's help and the infant drinks we hope to grow her weight. My own daughter Ana had a weight problem, suffered reflux and was not eating. But the infant supplement drinks helped and we are better now.*

*Nurse Jenny gave birth to a girl 2450gr and will return to work soon at the surgery.*

*Thank you for partnering us. The medicines are a huge blessing!*

### March

*I renovated the surgery with help from two guys that George Serban sent from Stoenești. I was visited by a team of Americans who donated reading glasses and medicine. The pharmacy from Daneasa burnt down due to a problem with the heating system. Now a lot of people are asking us for supplies of paracetamol and nurofen. Thanks for your support! *Dr Alina Nistor**
