

## HOMELESS

*We have a lot of street people we feed and help with clothes and shoes. As a special work we have Grandpa Sandu, 76 year old, who has lived with us from autumn 2019. As well as a place where he could live, he had an urgent need to renew his identity card, so he can be able to look after his medical problems. We succeed to do this, and by a miracle we succeed to make his medical insurance. This is not all for free, but 80% is covered. So we praise God for all the doors that he opened, for all people that supplied financial help. An urgent need now in the virus time is to help homeless people from street to eat... pray for this too.*

## SPORT ACTIVITIES

*A new door that God opened for the hall is that fathers started to meet with their children for sports activities, about 2 evenings per week. Goghi came with this proposal to the fathers of the kindergarten children. The fathers find it such a good time to disconnect them from stress and from the duties of day by day. They find that it is so great to play football with the children, floor ball, basket ball, badminton etc... Also when they rest they have all kinds of discussion and questions - God opens so many doors to tell them about God love.*

*Also Vasile started to train the kids for **floor-ball** [photos right]. They meet 2 times per week and the kids hope they can participate soon in competition.*

## SUMMER HOLIDAY CLUB

*We intended to have a summer Holiday Club to start from the middle of June to the end of July. Our prayer list is: for children to come, for volunteer leaders and for financial support for materials we need to work with them. But we did not expect a Spring like it is... And now we are writing all this in total quarantine of the virus.*

## MAKING THE BEST OF THE TIMES

*We knew three years ago that difficult times will come over Romania and God prepared us for this. Whilst we are separated from family, from social life, friends, shopping... He teaches us how to listen His voice. Now we are in God's hand and follow His voice in the way how to help people: feed the poor, continue to meet on line with the children and encourage their families. We know that with all the people that God put us in contact until now, He did it with a reason. We could see that it is God's work, and we know that God in this time prepares their hearts. They see the love with which we care for their children and they know it is more than a human can offer.*

*They can see this in their children, how they pray and sing in the house.*

*So please pray for the times that will come, we need financial resources to supply the building bills, but also to feed people and to continue to help grandpa Sandu.*

*You are also in our prayers, may God protect you, your families and be with us all! Take encouragement and prayer: Romans 8v35-39 !*

*Yours, **Ana & Grigore Melente***
