

TIMIȘOARA HOLIDAY CAMP AT DEZNA

In the summer of 2016 we organized a children's camp: "The treasure in a jar of clay" and we had a great time together with 106 children and 25 leaders at the village of Dezna in Arad county. The camp was in the last week of July and it was a very blessed week by our Lord Jesus. Together with the children we sang and prayed, organized Bible reading time and biblical study in groups of age; to learn what it meant that we are treasures in a clay jar. We also had various daily workshops: medical workshop, singing workshop, clay modelling, constructions workshop, Hebrew customs workshop, crafting workshop. We also had a fun time during the sports games and the team games.

We are grateful for what the Lord did during this week in the life of all these children and we also want to thank everybody who supported us with their prayers and other supplies that we needed.

God bless you, *Paul Kiss*

This is what some of the children wrote:

I really liked the worship time. Every night there was a sketch, which presented much to learn. And the food was very, very good!

Damaris, aged 10

I liked the angel game. Everyone had an angel. The angel sent gifts and notes with messages. It was interesting because I did not know who my angel was until the last evening at the campfire.

Gabriel, aged 10

I liked most the campfire. I had never seen one before. We stayed up late around the fire, talking and singing.

Ana Maria, aged 9

I really liked the workshop about the customs of Israel, the Hebrew songs and prayer. I learned things about Jewish customs. Other things I liked were the treasure-hunt game, and especially the water-fight, it was really fun. *Ruben, 9 years old*
