

THE HOMELESS

We continue to be available to the homeless people and share food with them. At the moment an old man is staying in the house. He was a shepherd. But when he started to get old and ill no-one wanted to hire him, and his employer did not want to look after him. Also his children didn't want him. So for 7 years he lived on the street, most of the time sleeping at the railway station. He came to us to ask for a little food. It is a blessing we can help, because we have a room where he can stay and be warm. He can wash and cook food. But the most important thing is that we can share the news that God loves him!

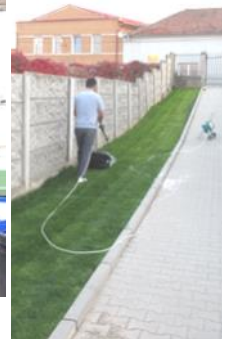

KIDS FROM MWB PROGRAM

We continue to help 20 children and their families within a program from Mission Without Borders. We periodically provide food, school materials, cleaning things, and clothes. We were overjoyed that 15 children from this program were able to go in summer camp. Over 10 days the children learnt to be a person after God's heart, like David was.

RENOVATION

In August we carried out the building work to renovate a second classroom ready for the start of the school year. In September we had a team from USA who helped to clean the yard outside, and play with the kids at the start of kindergarten. We are very happy to have some green grass at the side of the site, our vision from past years!

CHRISTMAS

This Christmas we need presents for the kids at the kindergarten and the disabled children. We do not know how God will provide these, but we pray! Also, with the parents from kindergarten we want to visit some poor families with carols and give presents that our children have made. We tried this last year, but it was not successful because it rained heavily on the evening we had chosen. So please pray for this time too.

*Thank you very much for the winter wood, for all the support to pay taxes and bills over 2019. Thank you for all the new clothes, they are very useful. But most then all we thank you for prayers and encouragement. **Ana & Grigore***

In May 2019 Reach 2 Romania ceased to send monthly payments to Fundația Emanuel Betania in Teiuș, because we had run out of money. However, we have sent money for winter wood and utilities; and hope to be able to continue this for the next year. We continue to send material aid, and have provided 2 computers and a laser copier for lesson preparation at the kindergarten. We have not sent Christmas materials this year. **Ed.**
