

# BERINDEI

Meet the Boldolaru family [top right] who have taken over from the Niștor family in Berindei. Petrișor and Roxana have 3 children, and will be developing their own style of ministry in association with George Serban in Stoenesti.

This will move away from the previous emphasis on medical work. But we still expect there to be some medical facilities for those in the community without insurance. So for the time being we are continuing to send medical supplies. Petrișor is keen to develop a music program. We have sent 2 guitars and a laser copier towards this work.

In May I visited the village school and took part in a Math's lesson and an English lesson. I was surprised at the difficulty of their work. I can see its not easy being a student today. I have a standing invitation to return!

In October we sent new clothes, and these were distributed in the schools at Berindei [below left] and nearby Daneasa [below right].

The computer room we supplied at Berindei school continues to function [photo left]. The children are wearing new blazers supplied by a customer of Rowlinson Knitwear. On the same pallet as Berindei we have also sent boxes for Comani [below right] and Stoenesti [below left].

I think there is rather a lot of growing room in those trousers !
