

Greetings from Fundația Emanuel Betania in Teiuș KINDERGARTEN

The last six months has been an uncertain time as to whether the kindergarten would meet in person, or move to internet teaching. The rules have changed many times at short notice, with lots of variations. Such as whether the rules apply to State or private kindergartens. For internet teaching this only applies to the older children, not the youngest. For working families the kindergarten may still open for day-care but not for teaching. But if one of the children tests positive then the whole kindergarten must isolate for 5 days. Throughout all this period Ana and Grigore have put in huge amounts of time to cope with all the variations, and extra cleaning. Amongst the extra work, Grigore had to find the time for year 2 of his university studies.

On top of all this there was the stress of a Government inspection of the Kindergarten on 16 December 2021. The good news is that we passed the inspection with 10 out of 10; and the next inspection will be 4 years away.

After that the team could move on to the Christmas program on 22 December 2021.

Puppet show

Maria [left] is a very valuable help with the long kindergarten program for working parents, who drop kids off from 07:30 in the morning. She is paid from the money the parents contribute to the long program. We also provide her with a room to sleep, because she grew up in an orphanage and has nothing of her own.
