

## MOLDOVA

Remus and Catea Trimbițaș are based with Operation Mobilisation at Chișnău, Moldova. They are involved in mission and children’s programs. They also do a lot of humanitarian work in the nearby villages, especially Pojareni. Our initial idea was to send new clothing in support of their work. But instead we now hope our funding level from sponsors will increase to a level where we are able to send some money in 2022.

*“In Pojareni we want to plant a church. So far none of us have done that, but we are blessed to be co-workers with God. We see His hand at work and say, "Lord, all Glory is Yours!" We continue to work in this village with the project: a hot meal a week. At the moment there are 10 people. We also continue*

*to bring people to church and not long ago we got involved with a project to help students with school supplies, in collaboration with OM Moldova. 5 students from socially vulnerable families benefited from a backpack and school supplies. Unfortunately we can no longer continue Bible study [in the winter] because it has become colder and we have nowhere to meet.*

*Viorica [left] is struggling in her marriage. Her husband has gone to Germany and is now living with another woman, threatening to expel Viorica from the house. She lives with her two children in an old house with minimal conditions. Anatolie [right] is also in our prayers. He is single and has cataracts in both eyes. Because he does not see, often when he asks someone to buy him*

*bread, that person does not return all his money back. In this way he is often left without any source of income. Remus goes to him every Wednesday and Sunday. We try to help him as best we can. We want to help him with a surgery on at least one eye so he can see. The operation costs 500 euros for one eye. We do not have the financial possibility but we pray that God will take care of it. Pray with us that God will do this miracle in his life.*
